Part n° :P90

FITTING INSTRUCTION

- 1)- Remove the air filter housing.
- 2)- Disconnect the flow meter from the upper part of the air filter housing then replace it in the induction piping.
- 3)- Fix the adaptor to the flow meter and fix the attaching bracket to the two anchorage points of the adaptor.
- 4)- Fix the attaching bracket to one of the original fixings of the air filter housing.
- 5)- Fix the GREEN filter to the adaptor.

IMPORTANT:

The running of your engine is linked directly with the maintenance of the air filter. Clean your air filter every 7000 kms or 4500 miles with Green cleaning products..

WARRANTY:

The air filter guarantee is for defects in materials and workmanship only. Guarantee is void if the air filter is damaged by an accident, unreasonable use, neglect, misuse, abuse, improper installation or other causes not arising out of defects in materials and workmanship. The induction kit is a technical product so it is necessary to have some basic mechanical skills. If problems do not hesitate to have your induction kit fitted by a professional.
