 00.33.3.44.02.64.64

 00.33.3.44.02.87.10

Part n° :P102

FITTING INSTRUCTION

Remove the complete air box.

Remove the pipe which links the air box to the inlet manifold.

Disconnect the air temperature probe from the air box then fix it to the pipe of the kit.

Fix the Green filter with its pipe to the inlet manifold.

Adjust the filter towards the front of the car in order that it does not touch a mechanical part.

Fix A & B pipes to the connectors.

Connect the air temperature probe.

IMPORTANT:

The running of your engine is linked directly with the maintenance of the air filter. Clean your air filter every 7000 kms or 4500 miles with Green cleaning products..

WARRANTY:

The air filter guarantee is for defects in materials and workmanship only. Guarantee is void if the air filter is damaged by an accident, unreasonable use, neglect, misuse, abuse, improper installation or other causes not arising out of defects in materials and workmanship. The induction kit is a technical product so it is necessary to have some basic mechanical skills. If problems do not hesitate to have your induction kit fitted by a professional.
