Part n° :P235

FITTING INSTRUCTION

- Remove the air box and the pipes A, B & C (see diagram A).
- Fix the green filter with its pipe (schéma B).
- Fix the pipe D to the connector made for that (see diagramB).
- Position the aluminium sleeve to the fresh air inlet nozzle then position it towards the filter (see diagramB).
- Fix the small green filter to the pipe C (see diagramB).
- Adjust the filter in order that it does not touch a mechanical part.

IMPORTANT:

The running of your engine is linked directly with the maintenance of the air filter. Clean your air filter every 7000 kms or 4500 miles with Green cleaning products.

WARRANTY:

The air filter guarantee is for defects in materials and workmanship only. Guarantee is void if the air filter is damaged by an accident, unreasonable use, neglect, misuse, abuse, improper installation or other causes not arising out of defects in materials and workmanship. The induction kit is a technical product so it is necessary to have some basic mechanical skills. If problems do not hesitate to have your induction kit fitted by a professional.
