122 rue du faubourg Saint Jean
ZA de l'AVELON - 60000 BEAUVAIS -
FRANCE

00.33.3.44.02.64.64

00.33.3.44.02.87.10

Part n° :P260

FITTING INSTRUCTION

- Remove the original air flexible pipe (see diagram A)
- Fix the induction kit to the throttle box (see diagram B)
- Connect the recycling flexible pipe, the idling control valve and the air temperature probe into the holes made for that.

IMPORTANT:

The running of your engine is linked directly with the maintenance of the air filter. Clean your air filter every 7000 kms or 4500 miles with Green cleaning products.

WARRANTY:

The air filter guarantee is for defects in materials and workmanship only. Guarantee is void if the air filter is damaged by an accident, unreasonable use, neglect, misuse, abuse, improper installation or other causes not arising out of defects in materials and workmanship. The induction kit is a technical product so it is necessary to have some basic mechanical skills. If problems do not hesitate to have your induction kit fitted by a professional.
