00.33.3.44.02.87.10

Part n° :P307

FITTING INSTRUCTION

Remove the air box and the oil vapor pipe (See diagram A)

Clean and remove the sealant off the air flow meter.

Fix and tighten the green filter onto the air flow meter. (See diagram B)

Fix the pipe A onto the connector made for that. (See diagram B)

Fix the small green filter onto the oil vapor recycling pipe. (See diagram B)

Orientate the air fresh pipe towards the filter.

IMPORTANT:

The running of your engine is linked directly with the maintenance of the air filter. Clean your air filter every 7000 kms or 4500 miles with Green cleaning products.

WARRANTY:

The air filter guarantee is for defects in materials and workmanship only. Guarantee is void if the air filter is damaged by an accident, unreasonable use, neglect, misuse, abuse, improper installation or other causes not arising out of defects in materials and workmanship. The induction kit is a technical product so it is necessary to have some basic mechanical skills. If problems do not hesitate to have your induction kit fitted by a professional.
